

# „Flexible“ Modality

## Concept

During a period of 4 weeks, 6-8 half-day (3h) virtual live sessions with our MCT experts take place. The sessions are already planned and can be easily combined with your daily work routine. In between the sessions there is enough time to process the learned knowledge.

### **Microsoft Teams Classroom**

*Around one week before the start of the course you will be onboarded to the dedicated Microsoft Teams class channel where all the training engagement will take place. You will receive a Microsoft Teams invitation e-mail and one calendar invite per 3-hour session with a direct access link. Of course, these sessions are recorded and are also made available for students following the session.*
